
WIRN
Bethlehem, Penna.

The COLLEGE BROADCASTING AFFILIATES, Herein refered to as CBA, will operate under the conditions and stipulations of this agreement. All parties shall, by acknowledging their membership in CBA, agree to be bound by these conditions and stipulations:

Each member station will send tapes of their programs of interest to the network headquarters in Bethlehem, Pennsylvania as soon as possible after the recording is made. CBA will be responsible for all duplicating, dubbing, editing, and assembly of the network tapes. CBA will send copies of the tapes received to each member station in accordance with the catagory preference indicated on the Program Check List which each member station has filed with CBA. Tapes will be sent prepaid at Educational Material posta ge rates unless otherwise specified and each receiving station will be billed monthly for these charges.

Upon receipt of a tape from CBA, the receiving station will be responsible for supplying CBA with one reel of tape (1200 feet on a 7-inch reel - any brand). While it is prefered that this tape be one of new program material, it may also be a blank tape. It is fairly obvious that a continuous flow of new program material is essential to the success of our operation. Programed or blank tape may be purchased from CBA at our cost plus shipping charges. Current price lists are enclosed. Any tapes sent out from CBA which are not returned or purchased within thirty (30) days of the shipping date will be billed to the receiving station. The term, "returned" as used here includes return of the same tape received with new material or the original material recorded on it, or of a new blank tape per above specifications. To facilitate the initial tape exchanges, each station, upon accepting these terms, will send CBA a reel of tape for use in the network programing.

Sincerely,

Fritz Kass

Fritz Kass

Tapes which are damaged in playing should be returned with notification of the damage incurred. Tapes which are damaged to the extent that they are no longer useable will be replaced by the receiving station which is responsible for the damage. Tapes which have been spliced must be so marked on the reel at the point of the splice.

CBA will absorb the following costs:

1) Those incurred in billing and related clerical work;
2) Those incurred in the processing of the tapes received;
3) The cost of CBA stationery and of these initial mailings.

CBA will provide a newsletter containing information of general interest to member stations on a periodic basis.

It is also expected that all participating stations will contribute tapes of value as quickly as possible and as often as possible. This is necessary if we are to maximize the benefit to all participating stations. The returning of a completed Program Check List shall constitute acceptance of these conditions and stipulations and assures your membership in the network.

Thank you very much for your cooperation.

Sincerely,

Fritz Kass
